Dear Mr. Hoenig:

Enclosures (1) thru (3) are the Draft Group I, III and IV Sampling Plans which describe the proposed sampling programs for the Remedial Investigations (RI) at Naval Station, Treasure Island, Hunters Point Annex. These documents are part of the RI Work Plan for Hunters Point Annex and are submitted for your review and comment. Enclosure (4) consists of low level, oblique aerial photos taken during the preparation of the Initial Assessment Study (IAS, 1984). These photos have been recently obtained from Navy archives. Data obtained from their evaluation have been incorporated into the Sample Plans, as appropriate, where apparent waste disposal activities have occurred on or near designated RI sites.

We request that you review enclosures (1) through (4) and provide your comments within 30 days of the date of this letter. We appreciate your cooperation in expediting your review. Comments should be directed to Commander, Western Division, Naval Facilities Engineering Command (Attn: Mr. Alex E. Dong, Code 1146, (415) 377-7502).

Sincerely,
